Regulations concerning the validity and use of certificates in the Public Administration came into force on 1 January 2012. In compliance with these regulations, the Public Administration cannot accept or request certificates concerning information which is already in the possession of the Italian public administration; only self-certifications will be accepted. This does not apply to certificates which contain information which is not in the possession of the Italian public administration (e.g. "dichiarazione di valore" for qualifications obtained abroad).

Article 1 – General Information

1. Under the terms of Decree no. 270 of 22 October 2004 issued by the Italian Ministry of Education, University and Research, the Alma Mater Studiorum - University of Bologna, Bologna Campus, will run a I level Professional Master Programme in “International Management - MIEX” for academic year 2024-2025.
2. The programme has been set up on the proposal of the Department of Management and the Department of Economics and is run in collaboration with ICN Business School (Nancy, France), with Fondazione Alma Mater, with the UNIBO Campus of Forli and with the School of Economics and Management.
3. The programme lasts for one year, classroom training is delivered in English, and the programme awards 60 CFU credits. Classes are held full-time. The Master MIEX Head Office is at the School of Economics and Management in Piazza A. Scaravilli 2 - 40126 - Bologna. Lessons will take place in France in Nancy and in Italy in Forli and Bologna.

In -class academic training is followed by on-field activities held in Italy or abroad and carried out as individual internships or in research assignments (field work) commissioned by firms. At the end of the internship or project work, participants must deliver a written report on the activity performed and the results achieved. The Master offers a professional training path at the end of which the future managers are able to respond to the specific operational needs of companies in the field of internationalization of markets, with an excellent linguistic competence and an adequate preparation in sales and management fields. In particular, the course aims to develop the skills and abilities of the professional role through theoretical teaching on core knowledge of business systems, on international management techniques and methodology of research, combined with the practical implementation of an international project.

The Master's program allows students to continue their studies at MIEX Network partners hosting the specialization market areas and access the respective degrees awarded. Access to the specialization semesters is conditional on the acquisition of 60CFU and the approval of the International Scientific Council of the MIEX Network - International Board of Studies - which reserves the right to approve access to the specific destinations chosen by the students consistent with the admission criteria for the Master's program and to activate the semesters based on the number of requests received for each destination, possibly limiting the choice due to force majeure causes not dependent on the International Board of Studies.

4. The Master is a post-graduate course with a closed number of places.
Failure to reach the minimum number of participants or the failure to reach the minimum budget requirements will result in the master not being activated. In the case of non-activation the Ufficio Master will run the reimbursements of the first instalment (excluding the processing the fee).
Please note that the pre-registration admission fee (60.00 Euro) will not be reimbursed, not even when the selection procedures are cancelled.
